BREAST GYNECOLOGICAL INTERNATIONAL CANCER CONFERENCE

15, 16 January 2015
Fairmont Heliopolis Hotel, Cairo Egypt

CALL FOR ABSTRACT
www.bgicc.eg.net
A step forward ... To precision medicine
Breast Gynecological International Cancer Society continues in its strive - through our deep sense of responsibility toward the health care community - to give a good platform for the exchange of experience on cancers & to outline the actual status of the problems relating to the Breast and Gynecological cancers, with discussion of the prospects in the context of the most recent international trends and initiatives for the treatment.

I am glad to invite you to join the 7th Breast Gynecological International Cancer Conference (BGICC) to be held on 15, 16 January, 2015.

International Collaboration has been the theme for the BGICC from its first edition and this year, we will underpin the need for collaboration and cooperation in implanting cancer control strategies, exchange of experience on cancers & networking with colleagues from around the world, collaborating with international societies and high caliber international experts to make cancer history the driving force behind the collaboration is the shared mission of the organizations and scientists to advance progress against cancer.

Clinical cancer research professional will gather in a challenge for future eradication of cancer.

Conference's Scientific Program is designed to provide state-of-the-art information on breast cancer research, issues; offering breakthrough advances and insight in scientific and clinical research, patient management and practice through an outstanding range of scientific and educational symposia, special sessions, teaching lectures, workshops, debates and much more. A comprehensive, stimulating and highly-educational scientific experience is guaranteed for all.

Hesham El Ghazaly
General Secretary of th BGICC
on behalf of the conference board
Prof. Eric Winer
Chief of the Division of Women's Cancers,
Director of the Breast Oncology Center
and Thompson Senior Investigator in
Breast Cancer Research at Dana-Farber Cancer Institute; Professor, Department of
Medicine, Harvard Medical School; Physician, Brigham and Women's Hospital; and ASCO
Board of Directors member; USA

Prof. Banu Arun
Professor of Breast Medical Oncology,
Co-director Clinical Cancer Genetics,
University of Texas, MD Anderson
Cancer Center; USA

Prof. Matti Aapro
Executive Director, International Society of
Geriatric Oncology (SIOG) and President,
Multinational Association of Supportive Care in Cancer (MASCC)

Prof. Alphonse Taghian
Professor of Radiation Oncology,
Harvard Medical School
Chief Breast Radiation Oncology,
Massachusetts General Hospital
Co-Director Breast Cancer Research Program, Boston, USA

Prof. Valentina Guarneri
Assistant Professor Division of;
Medical Oncology
Dept of Oncology, Hematology
and Respiratory Diseases
University Hospital Modena, Italy

Prof. Ann Partridge
Professor, Department of Medicine,
Harvard Medical School
Active Medical Staff, Medical Oncology,
Dana-Farber Cancer Institute
USA

Prof. Nuhad Ibrahim
Professor, Department of
Breast Medical Oncology
MD Anderson Cancer Center
Houston Texas, USA

Prof. Pierre F. Conte
Chief, Division of Medical Oncology,
University of Modena and Reggio Emilia, Italy

Prof. David Cameron
Professor of Medical Oncology,
Edinburgh Cancer Research Centre
The University of Edinburgh, Edinburgh, UK

Prof. Alvarez Ricardo
Professor of Medical Oncology,
MD Anderson Cancer Center,
Texas University, USA
Prof. Shahlaa Masood
Chair, Department of Pathology and Laboratory Medicine; Program Director, Cytopathology Fellowship. Program Director, Breast Pathology Fellowship. Medical Director, Breast Health Center. Jacksonville University, USA

Prof. Fredrique Penault-Llorca
Department of Pathology, Centre Jean-Perrin, Clermont-Ferrand, France

Prof. Pierre-Yves Bondiau
Prof. of Radiation Oncology, France

Prof. Mehra Golshan
Professor, Department of Surgery, Harvard Medical School. Distinguished Chair, Surgical Oncology, Brigham and Women’s Hospital. Director, Breast Surgical Services, DBWCC, Brigham and Women’s Hospital, USA.

Prof. Mohamed Elshaikh
Senior Staff Physician Director, Residency Training Program Radiation Oncology Department Henry Ford Hospital

Prof. James Reuben
Professor, Department of Hematopathology-Research Co-director Clinical Cancer Genetics, Leader, Diagnostic and Immunology. Core Morgan Welch Inflammatory Breast Cancer Research Program and Clinic. University of Texas M.D. Anderson Cancer Center. Houston, Texas, USA.

Prof. Moise Namer
Professor of Oncology. University of Medicine of Nice. Past head of oncology at Lacassagne. Nice. Chief of National Board of Breast Cancer, NCI. Chief of Breast Cancer Unit, NCI. Chief National Board of Breast Cancer

Prof. Mahmoud ElTamer
Attending Surgeon, Breast Service. Department of Surgery. Memorial Sloan-Kettering Cancer Center. Professor of Surgery. Weill Medical College at Cornell University

Prof. Joseph Gligorov
Professor of Medical Oncology. Tenon Hospital, President of APOME. France

Prof. Rouba Ali
Director of the GYN Oncology Tissue Procurement Program, and Director of Surgical Pathology Fellowship Program of Wayne State University and the Karmanos Cancer Institute. Co-Director GYN Oncology Multidisciplinary Team of the Karmanos Cancer Institute. Department of Pathology. Harper University Hospital, USA.
Prof. Gianfranco Scaperrotta  
Specialista in Radiologia Senologica  
Responsabile SS Radiologia Senologica  
Fondazione IFOSS Istituto Nazionale dei Tumori Milano

Prof. Dick Rainsbury  
Consultant Breast Surgeon  
Director of the Breast Unit  
Royal Hampshire County Hospital, Winchester UK

Prof. Jean Yves Petit  
Chairman of Plastic Department, European Institute of Oncology, Italy, Past Chairman of Reconstructive Oncology Department, IGR, France

Prof. Aysequil Sahin  
Director, Educational Operations  
Director, Breast Tumor Bank  
Section Chief, Breast Pathology  
Department of Pathology, MD Anderson, USA

Prof. Ahmed Sekotory  
Lead Consultant and Director of Gynecological Oncology  
Lead of Minimally Access and Robotic Surgery Unit, University Hospital of South Manchester The Christie NHS Foundation Trust, Manchester UK

Prof. Marc Spielmann  
Head of Medical Oncology  
B Breast Cancer  
Institut Gustave Roussy, France

Prof. Sami El Khatib  
Secretary General of AMAAC (Arab Medical Association Against Cancer), Jordan

Pascal Baltzer  
Professor of Radiology  
Medical University of Vienna

Prof. Steven Allen  
Consultant Radiologist at The Royal Marsden  
NHS Foundation Trust, UK

Prof. Michael Douek  
Consultant Breast Surgeon, Guy’s and St Thomas’ NHS Foundation Trust, King’s College London, Guy’s Hospital, United Kingdom
Prof. Hassan Jaafar  
Professor of Medical Oncology,  
Tawam Hospital, UAE

Prof. Mohammed Jaloudi  
Professor of Oncology, Tawam Hospital, UAE

Prof. Ahmed Saadeldin  
Consultant Medical Oncologist  
Armed Forces Hospital  
Riyadh, KSA

Prof. Om Alkhair Abualkhair  
Section Head & Consultant  
King Abdul-Aziz Medical City  
National Guard Health Affairs  
Kingdom of Saudi Arabia

Prof. Taher Eltewegeri  
Professor of Clinical Oncology  
King Faisal Hospital, KSA

Prof. Nagi Elsaghir  
Professor and the Director of the  
Breast Center of Excellence,  
Naef K. Basile Cancer Institute at the American University of Beirut Medical Center in Lebanon.

Prof. Marwan Ghosn  
Director of the Cancer Center and the Head of Hematology & Oncology Division  
Clemenceau Medical Center affiliated with Johns Hopkins International in Beirut, Lebanon

Prof. Sanaa Elsokhn  
Professor in Medical Oncology & Hematology  
Univ Of Jordan, Fac Of Med, Amman, Jordan
MAIN TOPICS OF THE MAIN CONFERENCE

- Implant-based breast reconstruction: indications and outcomes
- Breast reconstruction and radiotherapy
- Nipple sparing mastectomy: experience from a single large series at the European Institute of Oncology
- Oncological facts about fat transfer in breast reconstruction
- Complications of breast surgery
- Level 2 oncoplastic surgery for conservative treatment
- Neoadjuvant therapy and challenges for the oncology team
- Management of the axilla 2014 and beyond
- Surgical advances in breast cancer
- Breast conserving therapy and margins
- Magnetic technique for sentinel node biopsy
- Intra-operative radiotherapy for breast cancer
- Lipofilling for breast reconstruction / snb talk
- Cardiac toxicity from radiation
- The future of radiotherapy for breast and gynecologic cancers
- Role of contact brachytherapy x-ray 50 kv for vaginal vault irradiation
- Role of contact brachytherapy x-ray 50 kv for breast iort in selected patients.
- Boost with cyberknife for breast lesion
- Personalized medicine in oncology: medical, scientific and economical challenges
- Personalized treatments of breast cancer: 3 years experience at the igm
- Anti her 2 update in adjuvant setting.
- Antiher dual inhibitor in the neoadjuvant and metastatic setting
- Should all mastectomies be Nipple Sparing Mastectomy?
- Safety of Lipofilling in breast cancer patients?
- Are therapeutic mammoplasties techniques always indicated for partial reconstruction of the breast?
- Videos on BR and amniotomy
- Regional lymph nodes irradiation in breast cancer: indications and complications [30 min]
- Partial breast irradiation update
- Lymphedema after treatment for breast cancer: an old problem with new approach
- Cardiac Toxicity to radiation for breast cancer patients: the policy of zero tolerance
- Neoadjuvant versus adjuvant treatments for operable breast cancer
- Precision medicine: state of the art of target therapy in cancer
- Dual targeted therapy in breast cancer
- Neoadjuvant hormonal therapy for breast cancer: toward personalized therapy
- Adjuvant hormonal treatment: 5 or 10 years?
- What is the evidence
- Circulating tumor cells and the microenvironment
- Guidelines for advanced breast cancer
- Neoadjuvant therapy for her2 positive breast cancer in 2013
- Breast cancer guidelines
- Locally advanced breast cancer with neoadjuvant chemotherapy
- Managing breast cancer in young women
- Integrating genomic signatures in early breast cancer management
- Biology of breast cancer in young women
- Bc during pregnancy and pregnancy following bc
- Margin evaluation of segmental resections
- Fna of breast easy diagnostics lesions
- Er/pr/her2 evaluation and guidelines of asco/cap
- Fna of breast: difficult diagnostic lesions
- Molecular classification of breast cancer
- Histopathological evaluation of breast specimens after neoadjuvant therapy
- Molecular pathology of breast cancer
- Update on triple negative breast cancer management
- New panel gene testing for hereditary breast cancer and implications
- Sequencing of endocrine therapy in the metastatic setting
- Overcoming endocrine resistance in the metastatic setting
- Update on neoadjuvant Her2/neu targeted trials
- Risk-adapted adjuvant treatment for HER2 positive early breast cancer
- Chemotherapy of small tumors
- New paradigm of premenopausal adjuvant hormonal therapy
Topics

**Day 1: Breast Oncoplastic and reconstructive surgery session**

- Implant-based breast reconstruction: indications and outcomes
- Breast reconstruction and radiotherapy
- Nipple sparing mastectomy: experience from a single large series at the European institute of oncology
- Oncological facts about Fat transfer in breast reconstruction
- Complications of breast surgery
- Level 2 oncoplastic surgery for conservative treatment

**Day 2: Breast Cancer: Recent advances in surgical management of the breast and Axilla**

- DCIS
- Neoadjuvant therapy and challenges for the Oncology team
- Management of the axilla 2014 and beyond
- Surgical Advances in Breast Cancer
- Breast Conserving Therapy and Margins
- MRI in Breast cancer surgery
- Magnetic technique for sentinel node biopsy
- Intra-operative radiotherapy for breast cancer
- Lipofilling for breast reconstruction / SNB talk
PATHOLOGY COURSE

Course Director and International Experts

- Prof. Manal El Mahdy
- Prof. Rouba Ali
- Prof. Aysegul Sahin
- Prof. Fredrique Penault Ilorca
- Prof. Shahla Masood

Topics

Day 1:
Session I: Cytopathology session
Topics:
- Breast Cytopathology for General Pathologist.
- The Expanded Role of Cytopathology in Breast Cancer Research and Management

Session II: Breast pathology session;
Topics:
- Clinically Relevant Classification of papillary Lesions of Breast.
- Fibroepithelial lesions of Breast.
- Ductal Carcinoma of Breast: Diverse Histopathologic and molecular Biology.

Day 2:
Session I: Gynepathology session;

Topics:
- Updates on endometrial carcinoma, types and grades!
- Contemporary issues in ovarian carcinoma.
- Insitu and invasive endocervical adenocarcinoma: Problems and Pitfalls in Diagnosis.

Session II: Case presentations:

PALLIATIVE CARE COURSE

Course Director and International Expert

Dr. Samy Alsirafy

Topics

- Quality of life
- End-of-life care quality indicators
- Communicating bad news
- Prognostication
- Models of palliative care delivery
- Management of common symptoms at the end-of-life
GYNECOLOGY COURSE

Course Director and International Expert

Prof. Maged Abuseeda
Prof. Ahmed Sikotori

Cervical Cancer:

- Reducing morbidity in cervical cancer: the role of surgery
- The role of neoadjuvant chemotherapy in cervical cancer: the evidence so far
- New advances in radiotherapy treatment in cervical cancer
- The role of PET-CT in cervical cancer management
- Chemotherapy in recurrent cervical cancer: contemporary approach

- Ovarian cancer:

- Surgery in advanced ovarian cancer: how far can we go?
- Recurrent ovarian cancer: the surgical approach
- Evidence based chemotherapy in ovarian cancer: an overview
- Management of non epithelial ovarian cancer
- Familial ovarian cancer: the role of targeted therapy

- Endometrial cancer:

- Surgical staging in endometrial cancer: the evidence so far
- Radiotherapy treatment in endometrial cancer: a modern approach
- The role of chemotherapy in endometrial cancer management
- Management of advanced endometrial cancer: a multidisciplinary approach
- Recurrent endometrial cancer: treatment approaches
RADIOTherapy COURSE

Course Director and International Expert

Prof. Khaled Abdelkarim
Prof. Mohamed AbouelEtotouh
Prof. Mohamed Elshaikh
Prof. Alphonse Taghian

TOPICS

Day 1:

Session 1: Gynaecological radiotherapy:
- Role of contact brachytherapy x-ray 50 kv for vaginal vault irradiation.
- Conformal radiotherapy for cervical carcinoma.
- Brachytherapy in Gynaecological malignancies, NCI, Egypt, long experience.

Case presentation.

Q&A with expert pannel dicussion and latest recommendations.

Session 2: Breast radiotherapy:
- Partial breast irradiation: A new paradigm.
- Role of contact brachytherapy x-ray 50 kv for breast IORT in selected patients.
- Radiation after neoadjuvant chemotherapy in breast cancer patients.

Q&A with expert pannel dicussion.

Day 2:

- IMRT for breast cancer patients, planning consideration and dose verification.
- Brachytherapy for gynaecological tumors: a practical overview.

- Meet the professor session:
Course Director and International Expert

Prof. Naglaa Abdel Razek  Pascal Baltzer  Prof. Gianfranco Scaparrotta  Prof. Steven Allen

**DAY 1:**

**Session 1: Benign versus malignant**
- Mammography of benign & malignant lesions
- Ultrasonography of benign & malignant lesions
- BI-RADS & recent updates

**Session 2: High risk lesions & DCIS**
- Pathology of high risk lesions & DCIS
- Imaging of High risk lesions
- Mammography & ultrasound of DCIS
- MRI in DCIS.
- Updates in biopsy procedures of high risk lesions & DCIS.

**Session 3: Breast Cancer molecular Subtypes and Tailored therapy**
- Breast Cancer molecular subtypes.
- Imaging specific of breast cancer molecular subtypes
- Breast cancer molecular subtypes, Tailored therapy
- Radiological evaluation of pathological complete response.
- Breast Intervention workshop
- Basic Breast biopsy procedures.
- Vacuum assisted biopsy
- Breast lesion excision biopsy (BLES).
- Vacuum assisted biopsy versus BLES.
- Cryoablation and cryobiopsy.
- Case presentation.
- Hands on breast intervention.

**DAY 2**
- Updates on Breast cancer Screening.
- Latest guidelines in Screening.
- Screening recommendations of high risk
- Quality assurance in breast cancer screening.
- Tomosynthesis and screening.
- MRI breast in Screening.
- Ultrasonography in Screening.
- Over-diagnosis in Screening.
- Contrast Mammography in screening.
- Breast density & spectral mammography.
- Breast MRI workshop.
NURSING COURSE

Course Director:

Prof. Wafaa Quda

Nursing Aspects in Managing Cancer Breast

- Extravasiation of chemotherapy
- Critical condition in cancer patient
- 5757 Hospital An overview
- Nursing management of patients undergoing radio and chemotherapy
- Primary care nursing and follow up of women suffering from breast cancer
- The art of living: Changing life style of breast cancer patients
- Effect of phytoestrogen to alleviate climactic symptoms of premenstrual menopausal age
- Role of nurse in breast self examination
- Raising awareness of adolescent girls regarding warning signs of breast cancer
- Nursing management of stress and anxiety for women with breast cancer
- Health education of women with breast cancer and their families
- Psychological reactions and body image of women post-mastectomy
- Enhancement of quality of life among women with breast cancer
- Improving self care practices of women to prevent post-mastectomy related complications
- Instructional guideline for women with cancer breast
- Herbal therapy in cancer breast management
- Advisory messages for young women at risk of breast cancer
Welcome BGICC

While breast and gynecological cancers rates have increased worldwide, it is still important to understand the importance of early diagnosis and treatment. The Breast and Gynecological International Conference on Cancer (BGICC) is known as the world's largest and most comprehensive meeting on breast and gynecological cancer research. This annual conference brings together leading experts from around the world to discuss the latest developments and innovations in the field.

Our Mission

BGICC is committed to advancing the understanding and treatment of breast and gynecological cancer through interdisciplinary cooperation, education, and research. The conference features a diverse range of sessions, including plenary talks, workshops, and scientific sessions, as well as networking opportunities for attendees.

Read more...
Benefits for BGICS members during the congress
As a BGICS member, going to the annual congress is a unique experience, starting with the fact that members get discounted registration fees.

Visit the BGICS Members’ Lounge
Our exclusive “members only” area will be at your disposal for the duration of the congress.

What to expect?
The BGICS Members’ Lounge has been designed to provide BGICS members with an exclusive area to relax in between sessions, chat with other members of the BGICS community and access your email. Membership staff will be on hand to cater to your membership needs!
To enter the lounge your badges will be scanned by a hostess. New members or members who do not have the BGICS member ribbon on their badge, can obtain the ribbon at the membership services’ counter to avoid having to be checked again.

Facilities
• Working area: laptops connected to internet and printers
• Lounge area: relax in between scientific sessions and meetings
• Catering: grab a snack over lunchtime, or stop by for a hot or cold drink
• Literature area: discover the latest publications
• Membership services desk renew your membership, ask questions

Pick up your BGICS Member Ribbon
Be recognised as a BGICS Member to be granted access to the BGICS Membership Lounge. All members and new members signing up during the 6th BGICS will be given a BGICS Member Ribbon identifying them as members of the society. You can pick up your ribbon either at the the registration area, BGICS Booth, or BGICS Membership Lounge.

Become a BGICS Ambassador
You probably have colleagues who will be attending the congress, but are not yet BGICS members?
Congress is the ideal occasion to tell them about the member benefits and why they should join BGICS, too. Bring them to the BGICS booth to sign up and you will be rewarded with Free renewal of your annual membership!
Members can pick up an Ambassador Programme Card in the lounge or on the booth to pass on to colleagues during the congress to sign up at the BGICS booth. Once your colleague has become a member, you can then stop by the booth to freely renew your membership for introducing a new member!
Also pick up the Ambassador Programme card in the lounge or on the booth, to take home to colleagues who are not at the congress.

Young Oncologists
If you are a young oncologist, there is a specific track in the programme just for you! Kindly check it.
Missed a session or want to see it again?
Webcasts will be available to BGICS members approximately 4 weeks after the congress.
LAST CALL FOR ABSTRACTS

The abstract deadline is 1st December, 2014.

Oral Presentations: Select abstracts, chosen by the Program Committee, will be presented as oral presentations.

Complete information (including presentation details, poster dimensions, etc.) will be provided after acceptance notification.

Poster Presentations: All accepted abstracts will be displayed as posters throughout the meeting. Complete information (including poster dimensions) will be provided after acceptance notification.

ABSTRACT SUBMISSION GUIDELINES

To submit an abstract, either online or by mail, Please follow the guidelines below.

All abstracts must include the following information:

- Name and degree(s) of all authors, with presenting author’s name listed in upper case.
- Brief title of the abstract.
- The abstract should not exceed 500 words.

Include the following contact information for the presenting author:

- First Name
- Last Name (Surname)
- Degree[s]
- Specialty or Department
- Institution/Affiliation
- Address
- Email
- Fax
- Phone
- Country
- ZIP/Postal Code
- City

You will receive an email confirming receipt of your abstract. If you do not receive confirmation, please contact bgicc2010@gmail.com

The Program Committee members will review your abstract, and you will be notified of their decision by December 21, 2014.

If you have any questions about the above guidelines, please contact Prof. Hesham Elghazaly

Tel: +2 01001300236, Dr. Yehia AbuGabel: +2 01149015456 or Dr. Ahmed Gaballah: 01066982266
