## Welcome Letter

After the success of the first SMOHC 2018, we have the pleasure to announce the "2<sup>nd</sup> South Multi-Disciplinary Oncology Hematology Congress" set to take place in Tyre on June 21 - 22, 2019 at "Imam Sadr Foundation" with whom we share the same values of caring about our patients and our society.

We put all our efforts to prepare a scientific program to discuss a multidisciplinary approach and the management of the most frequent types of cancers.

This year we will be hosting the first "Young Oncologist Forum" where young oncologists will interact and share ideas with their peers, learn about different areas of research, actively distribute information and promote the benefits of education and career. Also, this will provide an opportunity for collegial interaction with other young investigators and well-known senior investigators across the region.

This Congress will provide an opportunity for oncologists and physicians from other specialties, fellows, pharmacists and nurses to hear about the latest findings in the field from eminent experts coming from different Lebanese University Hospitals.

We promise you an unforgettable educational experience in the beautiful city of Tyre.

Looking forward to welcoming you!

Kind Regards,

**Fadi Farhat, MD, MHHM**

President of the Congress

President of Cancer Research Group - Collaborative Group

CEO ConsuHealth

Head of Division at Hammoud Hospital University Medical Center
