CASE REPORT

Jinane Kharmoum, Saoussane Kharmoum, Salma Bellarbi et al.: **Vaginal metastasis of renal cell carcinoma: a case report.** PAJO 7(3): 40-42, Sep 2014

Vaginal cancer represents less than 2% of genital tract malignancies and most cases are metastasis from cervix, endometrium, or colon. Metastasis of renal cell carcinoma to the vagina is extremely rare. We report the case of a patient who developed a vaginal metastasis of a clear renal cell carcinoma.
